S Y B Sc Student Online Seminar

The screenshot displays the Google Classroom interface for a class named "S.Y.B.Sc. 2020-21". The left sidebar contains navigation links: Home, Calendar, Teaching, Overview, and a list of classes. The "S.Y.B.Sc. 2020-21" class is selected. The top navigation bar shows tabs for Stream, Classwork (active), People, and Grades. In the Classwork tab, there is a "+ Create" button and a dropdown menu for "All topics". The main content area shows an assignment titled "Student Seminar Topic" with a due date of "Nov 30, 2020". The assignment instructions state: "Pick the topic from correctly to submit your seminar topic. The seminar will be taken up per the syllabus. Each seminar carries 10 marks which will consider for your Internal Assessment (IA). It is compulsory for everyone to give seminar. For seminars, you can use PowerPoint presentations." To the right of the instructions, a progress bar shows "1 Turned in" and "27 Assigned". Below the instructions, there is a link to a Google Form titled "S. Y. B. Sc. Student Seminar..." with the URL "https://forms.gle/1GUp4bR96e". At the bottom of the assignment card, there is a "View instructions" link. The bottom of the screen shows the name "Prantinal III Camactar" and a small icon.

Online Practical Examination paper on Google Form Application

The image displays three screenshots of Google Forms, each representing a different online practical examination paper. Each form is titled 'Practical' and includes a search bar and navigation icons.

Form 1 (Top): This form is titled 'Practical' and contains a grid of 10 questions. The questions are organized into two rows of five. Each question is a multiple-choice type with a title, a description, and a list of options. The questions are related to the practical examination of the subject.

Form 2 (Middle): This form is also titled 'Practical' and contains a grid of 10 questions. The questions are organized into two rows of five. Each question is a multiple-choice type with a title, a description, and a list of options. The questions are related to the practical examination of the subject.

Form 3 (Bottom): This form is titled 'Practical' and contains a grid of 10 questions. The questions are organized into two rows of five. Each question is a multiple-choice type with a title, a description, and a list of options. The questions are related to the practical examination of the subject.

4.2.1 - Library is automated using E-Librarymanager 2019 Web Application Version 1.0

1. User Authentication

- ❖ **Login:** Secure login for different user roles such as students, staff, and administrators. **Role-Based Access Control:** Different access levels and permissions based on user roles, ensuring that users can only access relevant sections of the application.
- ❖ **Password Management:** Users can change their passwords, and there are mechanisms for password recovery.

2. Book Management

- ❖ **Catalog Management:** Administrators can add, update, and delete book entries in the library catalog. Books can be categorized by various attributes such as title, author, genre, and publication year.
- ❖ **Search Functionality:** Users can search for books using different filters such as title, author, ISBN, and keywords.
- ❖ **Inventory Management:** Tracks the number of copies available, borrowed, and reserved.

3. Book Transactions

- ❖ **Borrowing and Returning:** Users can borrow books, with the system keeping track of due dates and overdue books.
- ❖ **Transaction History:** Detailed records of all borrowing and returning transactions are maintained, which users and administrators can review.

4. Reporting Section

- ❖ **Transaction Reports:** Generate reports on borrowing and returning activities, overdue books, and user transactions.
- ❖ **Inventory Reports:** Provides insights into the current status of the library inventory, including available, borrowed, and reserved books.
- ❖ **User Activity Reports:** Detailed reports on user activities, including the most active users, popular books, and frequent borrowers.

5. Barcode Generation

- ❖ **Student Barcodes:** Generate and print barcodes for student IDs, which can be used for easy tracking of book transactions.
- ❖ **Book Barcodes:** Each book in the library catalog is assigned a unique barcode, facilitating quick check-in and check-out processes.

6. Staff Books and Periodicals

- ❖ **Staff Book Management:** Separate section for managing books borrowed by staff members, including extended borrowing periods and different borrowing rules.

- ❖ **Periodicals Management:** Manage subscriptions and issues of periodicals such as magazines and journals, with search and tracking capabilities.

7. User Management

- ❖ **User Profiles:** Detailed user profiles containing personal information, borrowing history, and current borrowed items.
- ❖ **Role Assignment:** Administrators can assign roles to users, granting different levels of access and permissions.
- ❖ **Activity Logs:** Maintain logs of user activities, which can be reviewed for security and monitoring purposes.

Summary

The eLibraryManager web application offers a comprehensive suite of features designed to streamline library management and enhance user experience. From secure user authentication and robust book management to detailed transaction tracking and insightful reporting, the application covers all aspects of library operations. Additionally, the inclusion of barcode generation, specialized management for staff books and periodicals, and extensive user management capabilities make it a versatile tool for educational institutions and libraries.
