Jalgaon

Best Practice

(2021-22)

Best Practice I

1. **Title of the Practice:** COVID-19 Vaccination Survey

2. **Objective of the Practice:**

- To create data for Government.
- Clearing the misconceptions of people about vaccination
- Spared awareness about Covid-19 effect on society.
- Spared awareness about Vaccination.

3. **The Context:**

The first case of COVID-19 infection reported in Kerala, India on January 27, 2020. During Covid-19 Pandemic that was first wave. India began its vaccination programme on **16 January 2021**. Nandurbar District in Maharashtra saw an exponential rise in cases in the second wave. Nandurbar District has reported a worrisome 1200 infection daily in early April 2021. One reason behind this situation is not awareness about Covid-19 Vaccination.

4. **The Practice:**

NSS department of our college conducted a Covid -19 vaccination survey for 23 villages of Akkalkuwa Tahsil under the guidance of Principal Prof. Dr. C.P. Sawant. NSS Programme officer Prof. Dr. V.R. Jogdand, Asst. Programme officer Prof. Rajeshwarsing Padvi complete survey with the help of 35 volunteer of National Service Scheme

5. **Evidence of Success**

It was very important to remove the misconceptions in the minds of the people of the tehsil about vaccination and to make them aware. For this student organized a street play. This street play was performed at the main square, bus stand, market place etc. Dramas were adapted and presented in tribal language by going to various villages.

The said report has been handed over to Hon. Mr. Sachin Maske (Tehsildar, Akkalkuwa Tehsil) by the principal of the college Prof. C. P. Sawant, NSS Program Officer Dr. Vinod Jogdand, and Assistant Program Officer Prof. Rajeshwar Singh S. Padvi. Regarding the remarkable achievements of the college, Assistant Collector Dr. Menank Ghosh and Tehsildar Shri. Sachin Maske proposed the vote of thanks and appreciated the students and the college administration.

6. **Problem Encountered and Resources Required:**

Illiteracy, lack of information facility & mode of communications, Misinformation about vaccination is some major issue. Students communicate with the tribal people in their local tribal language. Students explain the details of the survey with local leaders.

Best Practice

(2021-22)

Best Practice II

1. **Title of the Practice:** COVID-19 Vaccination Camp
2. **Objective of the Practice:**

- Reducing the spread of the pandemic and further reducing the associated disease and deaths.
- Prevent the spread of contagious, dangerous, and deadly diseases
- Reduction of overall COVID-19 severity and mortality;

3. **The Context:**

The first case of COVID-19 infection reported in Kerala, India on January 27, 2020. During Covid-19 Pandemic that was first wave. India began its vaccination programme on **16 January 2021**. Nandurbar District in Maharashtra saw an exponential rise in cases in the second wave. Nandurbar District has reported a worrisome 1200 infection daily in early April 2021. One reason behind this situation is not awareness about Covid-19 Vaccination.

4. **The Practice:**

A questionnaire was prepared using Google Forms for collecting vaccination information of students and the link of this form was shared to all students. According to the information received from the students, a total of 57 students had received the second dose of vaccination and 44 students had received the first vaccination. 19 students had no vaccination and rest 30 students did not provide information. The college collected the vaccination information of such students with a concerted effort and it was unanimously decided to vaccinate the students in the college itself.

5. **Evidence of Success**

Vaccination camp organizes by college on 25/10/2021 and 28/10/2021. A total of 30 students were vaccinated in this vaccination campaign.

6. **Problem Encountered and Resources Required:**

Misinformation about vaccination,
